Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art made of record does not teach or fairly suggest the combination of elements as recited in the following independent claim(s). Specifically, the prior art of record does not teach:

creating at least one new bucket in response to a query on the database and establishing a logical relationship between the new bucket and an existing bucket such that the existing bucket is a parent bucket of the new bucket (claim 1)

creating at least one candidate hole in the histogram based on the results of a query such that the candidate hole has boundaries corresponding to a range of attribute values returned by the query and creating a new child bucket that has a child frequency in the histogram corresponding to each modified hole (claims 9, 16, 20 and 22)

The dependent claims being definite, further limiting and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
